That all interference with slavery in the States is unwarranted. 2d. That all restrictions by the general government should cease, when the State comes into the Union He telt himself warranted, he said, in declaring that New York, while she will oppose all interference with slavery where it exists, and will adhere to all the compromises of the constitution, will also oppose all ex-

lension of slavery into free territory.

ANKIND HAVE NOW THE MEANS IN THEIR OWN HANDS OF RESTORING THEMSELVES TO HEALTH. WILL THEY BE WISE IN TIME. WHO CAN

An Individual only wishes to know the RIGHT VAY to pursue it; and there are none, were it de known how Life might be prolonged, and health recovered, who would not adopt the plan. Evidence is required, that the right way is discovered. This is what those suffering from sickness want to be satisfied about. For who so foolish as not to enjoy all the health his body is capable of! And who is there that would not live, when his experience can so much benefit himself and family? It is a melancholy fact that a very large proportion of the most useful members of society die between the ages of thirty and forty. How many widows and helpless orphans have been the consequence of mankind not having in their own power the means of restoring health THE CAUSE OF DISEASE.

Now when we are afflicted with sickness, it ariseth from the NATURAL POWERS of the body not having sufficient strength, in the Natural Course of the System, to expel those matters or humors which have become useless, and whose detention must produce injury to the organizm. Per instance, the pores are closed from checked perspiration: in this case, what should have passed out of the body by the pores of the skin, are thrown back upon the blood; the blood thus clagged in its circulation, remedies the evil by throwing the impurities which should have passed by the skin, upon the organs of the stomach and bowels. Now if the stomach and bowels are very healthy and strong, they expel the humors which the checked perspiration caused to be retained in the body, and no harm is done. But, if the stomach and bowels do not happen to be in this healthy condition—if, for instanse, the bowels should be in a costive or bound state, the matters of their own, as well as those received from the occasion of checked perspiration, are again taken up by the blood; and this FLUID or LIFE may be so impeded as to produce Apoplexy or Paralysis; or it may become quicker in its circulation, and fever be the result. If the lungs have been previously affected, then inflammation of the Lungs; if the heart, then Aneurism, or some affection of the heart, or Angina Pectoris; if the brain has previously suffered, then inflammation of the brain. It an injury has been done in time past to the body, and the past where the body. pointed a Committee to prepare notices of the time and the part where such was done continues weak, then that part will be affected. Il Asthma has ever been a prevailing complaint, it will show it-self again. Those who have been much troubled by said meeting. They therefore hereby give no-tice that a Railroad Convention will be held in the with Fever and Ague will be again affected by it, or some intermitting Fever will take its place.

or some intermitting Fever will take its place. If it be a child, then the Measles, Whosping Cough, Small Pox, or Scatlet Fever may be expected.— The Impurities which are striving to get out, but are not able without assistance, will produce that form of disease which the person having these impurities in him, is most susceptible to receive.

Now all these dangers and difficulties can be prevented, and the long and certain sickness, by assisting NATURE in the OUTSET, with a good dose of the BRANIJRETH PILLS. This is a fact, well understroad to be so by thousands of our dose of the BRANDRETH PILLS. This is a fact, well understood to be so by thousands of our citizens. This medicins, if taken so as to purge freely, will surely cure any curable disease. There is no form or kind of sickness that it does not exert a curative influence upon. Thus, by their power in resisting putrefaction, they cure Measles, Small Pox, Worms, and all contagious fevers. There is not a medicine in the world so able to purify the mass of the blood and restore it to a healthy condition as the BRANDRETH PILLS. This makes them so valuable in curing

All kinds of chronic diseases, as Erysipelas, Salt Rheum, Scald Head, White Swellings, Sore Eyes, and recent or Chronic enlargement of the Glands or otherwise. Perhaps the BRANDRETH PILLS are one of the most POWERFUL REMEDIES in NATURE for the cure of RHEUMATISM. and old diseases of the bones; for they open and penetrate into the inmost recesses of the body, and drive out all malignant humors. They dissolve coagulated blood, and cure inflammations of all kinds, whether of the bowels, of the lungs, or of other parts of the body. Their power is so great over the brain and the nerves, that Palsies and convulsions, (both in the mother and child) and insanity are cured by them. In fact, let any one suffering from sickness use them and be cured.— They are a medicine which have to be used to be appreciated. By their use alone, all Chronic disease could soon be banished from among us.—
Those whose prejudices will permit them, will find the BRANDRETH PILLS a great blessing to them and their families. They should be in every house. They may be justly termed the Safety Valve of disease.

GETTING UP BEFORE THE WORLD IS AIRED .- Beau Brummel, once the "bright particular star" of English fashion, being on one occasion asked the cause of a trifling hoarseness with which he was afflicted, attributed it partly to his having got up "before the world was aired," and partly to his having breakfasted in the room with 'a damp stranger." In such a climate, horseness or slight cough may be very good subjects for a joke, but in this country, where the thermometer sometimes rises or falls forty degrees in twentyfour hours, even these apparently unimportant symptoms are not to be neglected with impunity. If there is a predisposition in the constitution to pulmonary disease, Consumption will tread close upon the heels of the indications. There is no difficulty, however, in escaping the danger, if the proper precaution is taken by a timely use of the Wistar's Balsam of Wild Cherry. One bottle of this invaluable panacea usually relieves the worst case of cold, and restores the sufferer to health

CORVDON, IND. JAN, 28, 1848. It is no less a duty than a pleasure to state, for the benefit of the afflicted, that I consider WIS-TAR'S BALSAM OF WILD CHERRY, & great blessing to the human race. Having tried it in a case of severe afflictionof the lungs, I unhesitatingly recommend it to those similarly afflicted, as the best remedy I have ever tried, and one which cured me when physicians said I must die, and when I thought myself that my time to de-

WILLIAM COLDRON. HADDANFIELD, (N. J.,) April, 1843. On or about the 13th day of October, 1841, I as taken with a violent pain in the side, near the liver, which continued for about five days, and was followed by the breaking of an ulcer or abscess, which relieved the pain a little, but caused me to throw up a great quantity of effensive matter, and also much blood. Being greatly alarmed at this, I applied to a physician; but he replied that he thought he could do but little for me, except give me some mercury pills, which I refus ed to take, feeling satisfied that they could do no good. Many other remedies were then procured by my wife and friends, but none did me any good; and the discharge of blood and corruption still continued every few days, and at last became so offensive that I could scarcely breathe. I was also eized with a violent cough, which at times caused me to raise more blood than I had done before: and my disease continued in this way, still growing worse, until February, when all hope of my recovery was given up, and my friends all thou I would die of a galloping consumption. At this moment, when my life was apparently drawing near its close, I heard of Wistar's Balsam of Wild Cherry, and got a bottle, which relieved me immediately; and by the use of only three bottles of this medicine, all my pains were removed; my cough and spitting of blood and corruption entire-

"IS THIS MEDICINE!" We exclaimed the other day, on tasting Jayne's Tonic Vermifuge. It certainly has none of the nauseous flavour, which one associates with the idea of physic. Children consider it quite a treat, and or paysic. Children consider it quite a treat, and in taking it their palates are gratified, and their health restored at the same time.
